PRICES RISE ON **NEW YORK LIST**

Stocks Continue to Display In creasing Activity—Decline of Marks Causes Stir.

New York, June 5.—Stocks continue today to display the tendencies towar increasing activity at rising prices. Ther mere no developments of any particula consequence in the money market, or in the field of financial and business rout ine. The decline of marks attracted som attention to the foreign exchange, bu was not extensive enough to be of obvious significance. There was no disposition to relate it to the war advice, all the most of the property of the prope though the Anglo-French bonds display ed renewed firmness.

The dealings in stocks were on a scal-of moderately expending activity and the market action was in the main strong Most rails and some standard industrial Most ralls and some standard industrials exhibited superficial easiness, but an extensive array of industrial issues was dealt in rather largely at advancing quotations. The net result was to leave the average of quoted values at the close at a new high level for the recovery which set in last month. Talk abounded to the effect that the excessive aggressiveness of committees in the motor, group, and reoperations in the motor group and re-lated descriptions was burting the market, but such a result was hardly in the as-pects of the session.

American Beet Sugar Rises.

American Beet Sugar Rises.

Whatever one thinks of the ballooning process to which many various newcomers in the share list are being subjected, stocks as a whole have demonstrated fundamental vigor on numerous eccasions in the past year and a half under similar extravagant tests. Nor were the rising features of the day confined wholly to the acceleration of advance in motor and kindred stocks by the steps taken to promote the new large merger of automobile concerns.

American Beet Sugar and United Fruit were only two of a fairly long catalog of industrials which responded readily to operations for the rise. The Mercantile Marine shares seemed by their persistent show of rising strength to indicate an early and satisfactory agreement among the conflicting interests relative to the financial readjustment which will take the company out of its wholly anomalous receivership.

Common Stock Features Local Market—Lanston Comes

Back Strong.

CHICAGO GRAIN MARKET.

Chicago, June 5.—Importing nations have liquidated their long lines in the Chicago wheat market and some of them are now on the short side. Great Britain held enormous quantities of May wheat at one time and of July and September de-

ence before a justice of the peace on June 16, to answer a charge of wounding Hamilton Hall, jr., an Upper Mariboro autolst, with a revolver bullet.

Mark was arrested by Upper Mariboro officers after he had chased Hall from Washington to Upper Mariboro. The automobilist escaped after Mark arrested him in Washington for speeding. The policeman will be required to explain Hall's charge that he filled the Maryland atmosphere and Hall's mosphere and Hall's mechanics.

The pursuit lasted all the way to the Prince George county seat, and, according to Hall, the policeman got out his gun and took pot shots at the flying speeder enroute. The firing, Hall says, was particularly heavy as they passed through Forrestville, Md.

One bullet, Hall alleges, wounded him on the hand, another went into the back of the car, a third through the curtain and a fourth into a tire. The motorcycle cop overhauled Hall at Upper Marlboro, but having no papers, he couldn't get away with his prisoner. On the contrary, Hall had the policeman arrested.

Hold What You Gain

Well-managed business houses and corporations are feeling the stimulus of commercial and industrial prosperity in an increase of profits and resources.

But not all are wise enough to lay by at least a portion of their gains for dull seasons, or to meet possible losses, or to be able to expand their busi-
